

Development Cooperation Landscape

Andie Vaughn

USAID

7 minutes

USAID: Development Cooperation Landscape Tool

- Provide USAID staff with access to current, downloadable data on activities by other development partners
- This information will:
 - Identify areas of alignment and how we can leverage resources from partners
 - Reduce duplication
 - Better understand our partners' priorities
 - Support country strategy development
 - Augment briefers and high-level visits by USG officials
 - Comprehensively map what bilateral, multilateral, NGOs, private sector, and civil society is doing in individual countries by sector, location, and activity
